

## ***Suva® 407C(R-407C) Replaces R-22***

Suva® 407C is a long-term HFC replacement for R-22 in positive displacement equipment such as new or existing residential and commercial air conditioners and heat pumps. Suva® 407C offers similar performance to R-22 and can be used to retrofit existing R-22 air conditioning equipment.

### **Benefits :**

#### **Retrofits R-22 equipment**

Similar to R-22 in capacity and energy efficiency.

#### **Easy servicing**

Can be repeatedly topped off, leak after leak.

#### **HFC refrigerant**

No phase out date.

#### **Safe and easy to use**

A1/A1 ASHRAE safety classification, EPA SNAP accepted. UL recognized.
